REPORT (OF THE
SECRETARY OF STATE
OF CANADA)

FOR THE YEAR ENDED
MARCH 31, 1957

EDMOND CLOUTIER, C.M.G., O.A., D.S.P.
QUEEN'S PRINTER AND CONTROLLER OF STATIONERY
OTTAWA, 1957

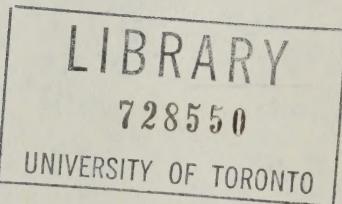

To His Excellency the Right Honourable Vincent Massey, C.H.,
Governor General and Commander-in-Chief of Canada.

SIR,—I have the honour to lay before Your Excellency the report of the Department of the Secretary of State for the financial year ended March 31, 1957 (during which the previous administration was in office).

Respectfully submitted,

ELLEN L. FAIRCLOUGH,

Secretary of State of Canada.

INTRODUCTION

The Deputy of Patent and Copyright General of Canada administers legislation relating to copyrights, patents or invention, trade marks, copyright, industrial designs, timber marking, mineral and petroleum, oil, transitions, names of trade, the registration of arms, seals, public offices and pedigree documents.

He is also the Custodian of the State Papers and as such administers legislation relating to the law relating thereto.

In his capacity of **STATE COUNSEL TO THE STATE** he consults with the Government of Canada and through the Canadian Consul and the Consul General concerning Canadian legislation, acts or documents and other subjects related to the interests of the Canadian government. Similarly, he is the spokesman of federal government in the Canadian legislature and concerned in the same way with the interests of the Canadian government.

The Honourable ELLEN L. FAIRCLOUGH, P.C., C.P.A., M.P.,
Secretary of State of Canada.

MADAM,—I have the honour to submit the report of the Department of the Secretary of State for the financial year ended March 31, 1957.

Respectfully submitted,

C. STEIN,
Under Secretary of State.

The Deputy Patent and Copyright General of Canada, who is also Deputy Custodian of State Papers, the Under Secretary of State for the Canadian government, the Deputy Minister of Finance, who is also the Auditor General of Canada, and the members of the executive mentioned below, shall be held responsible for the following delegations, namely the Commissioner of Patents, the Registrar of Trade Marks, and the Superintendent of the Bureau for Translations.

The functions of the department are carried out by the following divisions: Copyright Division, Patent and Copyright Office, Personnel and Accounts Division, Registration Division, Special Division, Trade Marks Office and Bureau for Translations. The activities of these divisions, in that order, are outlined in this report.

The operations of the Office of the Custodian of State Papers are dealt with in a separate report tabled in Parliament annually by the Secretary of State.

The Secretary of State, in addition, administers the Department of Public Printing and Stationery and is the spokesman in the Policy Council, Cabinet and Department of the Civil Service Commission and the Chief Electoral Officer. However, the present report covers only the operations of the Department of the Secretary of State.

INTRODUCTION

The Secretary of State and Registrar General of Canada administers legislation relating to companies, patents of invention, trade marks, copyright, industrial designs, timber marking, governmental and parliamentary translations, boards of trade, the registration of trade unions, public officers and public documents.

He is also the Custodian of Enemy Property and as such administers legislation relative to wartime trading with the enemy.

In his capacity of Secretary of State he communicates with the Governor General and, through the Governor General, with the Sovereign concerning various matters, such as decorations and other subjects related to the exercise of the royal prerogative. Similarly, he is the medium of formal communication between the federal and provincial governments through the lieutenant-governors. He is also responsible for the preparation and tabling of returns in Parliament.

As Registrar General he is the custodian of the Great Seal of Canada and of a Privy Seal of the Governor General.

The Decorations Committee and the Committee on the use of Parliament Hill and the National War Memorial report to him. State ceremonial, decorations and precedence, including publication of the Guide to Relative Precedence at Ottawa, are amongst a variety of "residual" functions entrusted to the Department of the Secretary of State.

The staff of the department is headed by the Under Secretary of State and Deputy Registrar General of Canada, who is also Deputy Custodian of Enemy Property. The staff next comprises the Assistant Under Secretary of State and Advisory Counsel and the directors of the divisions enumerated below, three of whom have statutory designations, namely the Commissioner of Patents, the Registrar of Trade Marks, and the Superintendent of the Bureau for Translations.

The functions of the department are carried out by the following divisions: Companies Division, Patent and Copyright Office, Personnel and Accounts Division, Registration Division, Special Division, Trade Marks Office and Bureau for Translations. The activities of these divisions, in that order, are outlined in this report.

The operations of the Office of the Custodian of Enemy Property are dealt with in a separate report tabled in Parliament annually by the Secretary of State.

The Secretary of State, in addition, administers the Department of Public Printing and Stationery and is the spokesman in the Privy Council, Cabinet and Parliament of the Civil Service Commission and the Chief Electoral Officer. However, the present report covers only the operations of the Department of the Secretary of State.

COMPANIES DIVISION

Under the Companies Act

Letters patent were granted incorporating 786 companies under Part I and 30 corporations without share capital under Part II.

Supplementary letters patent were granted to 499 existing companies and to 9 existing corporations without share capital; 14 certificates were issued to existing companies increasing the amount of the consideration to be received for the issuance of shares without nominal or par value.

Pursuant to the provisions of Part IV, 4 licences were issued to foreign mining companies to carry on mining operations in the Northwest Territories and in the Yukon Territory.

The total number of documents entered on the Register of Mortgages and Charges pursuant to the provisions of sections 66 and 68 was 142. The instruments so entered include 44 deeds of trust and mortgage, 40 supplemental deeds of trust and mortgage, 10 debentures, 1 indenture of guarantee, 1 deed of amendment, 1 deed poll, 1 acte de fiducie and 44 memoranda of satisfaction.

The number of annual summaries submitted under section 125 totalled 10,843.

Under section 29 certificates of acceptance of surrender of charters were issued dissolving 168 companies and 20 charters were returned for cancellation. Advice was received to the effect that some 26 companies had gone into bankruptcy or were in the process of liquidation.

The Companies Division maintains a complete record of the names of all Canadian companies incorporated under or by federal and provincial statutes. There were 4,301 searches undertaken by the Searching Section, of which 3,346 were to determine the availability of suggested corporate names and 955 were inquiries as to the existence or otherwise of companies under specific names.

Under the Boards of Trade Act

There were 20 boards of trade registered, 1 order in council issued changing the name of a board of trade and 1 order in council issued dissolving a board of trade.

PATENT AND COPYRIGHT OFFICE

Report of the Commissioner of Patents for the fiscal year ended March 31, 1957.

INTRODUCTION

This report is made pursuant to the requirement of section 27 of the Patent Act, (Chapter 203, R.S.C. 1952 as amended by Chapter 19, and Chapter 40, section 15, 2-3 Eliz. II, 1953-54). The Tables included herein contain information concerning the transactions of the office, patent, copyright, industrial design, and timber mark fees, total receipts and expenditures, trend of invention, residence of inventors for applications filed and residence of inventors for patents granted. Examination and disposal of a patent application by the office in accordance with the Act and regulations entail a search for novelty, consideration of inventive subject matter, a decision as to patentability and also verification of compliance with procedural requirements. The statute provides for the grant of a seventeen year exclusive right to the inventor (or his successor in title) in return for his disclosing and making available to the public the product of his inventive genius and labours. It also contains provisions to safeguard the public interest against possible abuses of patent rights.

GENERAL BUSINESS

The general business of the Office again shows an increase as compared with that of the previous year.

A total of 21,762 applications for patents was filed during the year. This is 714 more than last year or an increase of 3.39%, and the greatest number filed in any year. Of these applications, 15,391 were filed under the provisions of the International Convention for the Protection of Industrial Property and were given priority of filing date.

The number of applications dealt with by the Examiners shows an all time record of 42,538, of which 16,400 were allowed and 26,138 were reported. These figures indicate a total increase over last year of 5,091 applications; of these, 1,895 were allowed and 3,196 were reported, or an increase of 13% and 14% respectively. There were 15,513 patents issued, an increase of 31% over last year. The number of abandoned applications was 3,941. The assignments recorded totalled 19,124.

In the Copyright and Industrial Design Branch the volume of business was approximately the same as last year. The Branch registered 5,099 Copyrights and 601 Industrial Designs.

The following tables show, respectively, the transactions of the Patent Office and of the Copyright and Industrial Design Branch for the last ten-year period.

TRANSACTIONS OF THE PATENT BRANCH FROM 1947-48 TO 1956-57

NOTE—

*The figures for the years 1947-48 and 1948-49 indicate the cost of the Patent Office Record only; the figures for the years 1949-50 to 1956-57 include the cost of printing patents as well.

The total receipts of the Patent and Copyright Office exceed those of last year by \$170,207.34. The greater number of patent applications filed and the greatly increased number of patents granted are the main reasons for the increased revenue. The receipts of the Patent Branch were \$1,405,136.82 and those of the Copyright and Industrial Design Branch amounted to \$21,628.72.

The amount spent on salaries was \$148,439.12 more than last year. This increase is due to 18 more positions being occupied during the year and to normal annual compensation. The cost of printing the Canadian Patent Office Record and the patents has increased by \$184,889.01 due to 4,553 more patents being granted and printed. Expenditure for patent printing amounted to \$597,244.49 and for printing the Patent Office Record to \$152,007.34. An amount of \$23,994.50 carried forward from the year 1955-56 had to be paid from the 1956-57 budget.

The following table shows in greater detail the Patent Branch fees for the ten-year period ended March 31, 1957.

PATENT GRANTS

There were 15,513 patents granted. Of the total, 15,457 were issued for the full term of seventeen years; 37 for a limited term pursuant to section 28A of Chapter 32, S.C. 1935, as enacted by Chapter 23, 11 George VI, 1947, section 7; and 19 were reissued under section 50 of the Patent Act, Chapter 23, R.S.C. 1952.

Patents issued to assignees of the whole interest totalled 12,524, jointly to inventors and assignees of part interest 149, to inventors and to legal representatives 2,840. The number of patents issued to companies was 12,360, to individuals 3,094 and to companies and individuals jointly 59. Patents where invention was claimed to have been made by two or more inventors totalled 4,894 and by one inventor 10,619. Of the total, 93 patents were issued to female inventors, to male and female inventors jointly 48, and to male inventors 15,372. There were 1,787 patents granted to Canadian citizens or companies and 13,726 to applicants of foreign origin. Fifteen thousand four hundred and fifty-eight grants were made in the English language and fifty-five in French.

FORFEITURES, RESTORATIONS AND REINSTATEMENTS

Due to failure to pay final fees within the period required by section 75 a total of 727 applications became forfeited. Upon payment of restoration and final fees 86 forfeited applications were restored. Of the applications that had lapsed through failure to complete or prosecute within the time specified as provided under section 32, reinstatements were allowed in respect of 108.

TREND OF INVENTION

The table which follows shows the subject matter of invention and the percentage of the total number of applications classified during the last two years.

Subject Matter of Invention	Per cent of Total	
	1956-57	1955-56

REGISTER OF PATENT AGENTS

Under the provisions of section 15 of the Patent Act and the Rules under the Patent Act, the names of sixty-one patent agents were added to the Register. By reason of failure to comply with rule 144, the names of forty-two patent agents were removed from the Register. A qualifying examination under rule 143 was held at Montreal, Ottawa, Toronto, Sarnia and Edmonton on October 22nd and 23rd, 1956. Fourteen candidates tried the examination and seven were successful. At the close of the year the names of 1,052 patent attorneys and patent agents appeared on the Register.

PATENT OFFICE RECORD

Pursuant to section 27 of the Patent Act, which requires the publication of a list of all patents granted, the official journal of the Office, "The Canadian Patent Office Record and Register of Copyrights", was published on Tuesday in each week. Publication was made in each issue of the principal drawings and claims of patents granted on the date of publication, notices and other actions under the Act, lists of copyrights, assignments of copyrights and abridgements of industrial designs registered during the week.

During the year the distribution of the Patent Office Record was transferred to the Department of Public Printing and Stationery in order to take advantage of modern facilities for wrapping, addressing and mailing, and to simplify transport arrangements.

In exchange for the "Record", the Office received the official journals, indexes and reports on patents, designs and copyrights from the patent offices of Australia, Austria, Belgium, Brazil, Egypt, France, Great Britain, Germany, India, Italy, Japan, Korea, Mexico, the Netherlands, New Zealand, Norway, Pakistan, Union of South Africa, Sweden, Switzerland and the United States of America.

The "Record" was also exchanged for twenty scientific periodicals and trade journals for the use of the Office.

PATENT PRINTING

A branch of the Government Printing Bureau printed 15,900 patents during the year. This figure includes 68 reprints and 136 patents of the issue of 1948. The total number of printed patents dispatched was 345,177.

PATENT OFFICE LIBRARY

During the year 945 volumes were added to the Library. Copies of the current issues of patents were received regularly from Australia, Austria, Belgium, France, Great Britain, Italy, Japan, the Netherlands, Sweden, Switzerland and the United States of America. Patent journals, indexes and reports were also received from the said countries as well as from Brazil, Egypt, Germany, India, Korea, Mexico, New Zealand, Norway, Pakistan and the Union of South Africa.

The Library now contains copies of patents of the following countries from the dates given to the present date, namely:—Great Britain from the year 1617, the United States of America from 1845, France from 1902, Italy from 1925, Australia from 1926, the Netherlands from 1947, Sweden from 1947, Switzerland from 1949, Austria from 1949, Belgium from 1950 and Japan from 1950. The Library also contains printed copies of Canadian patents from 1949 and plant patents of the United States of America from No. 1 of August 1, 1931 to No. 1585 of March 26, 1957.

All the United States patents from 1934 to date are segregated according to the classification in force at the time of issue of the individual patents.

The Library contains 25,091 volumes in all.

STAFF

During the year, the number of established positions has been increased from 260 to 264 as provided for in the estimates for 1956-57.

The average number of positions occupied was 233 comprising 9 in Administration, 85 in Patent Examination and 139 clerical and other staff. During the year 22 new Patent Examiners were appointed. One Examiner retired on pension and one died. Nine resigned their positions.

The shortage of Engineers is still very acute and recruiting of Patent Examiners is very difficult. A competition is open the year round for recruiting Examiners.

NEWFOUNDLAND PATENTS

Five applications for the grant of letters patent under the laws of Newfoundland (pursuant to the provisions of subsection (3) of section 20 of the Terms of Union of Newfoundland with Canada) remained pending at the end of the year, notice of objection to the grant of such letters patent having been filed against each application.

PERSONNEL AND ACCOUNTS DIVISION

The number of employees on strength at the end of the fiscal year 1956-57 was 633 as compared with 600 for the previous fiscal year. 339 requisitions relating to personnel were dealt with; last year there were 273.

The number of requisitions issued in the accounts and supplies section in 1956-57 was 2,158, compared with 2,418 last year.

The revenue and expenditure for 1956-57 was as follows:

	Revenue	Expenditure
Departmental Administration.....	\$ 7,807	\$ 243,826
Companies Division.....	565,446	97,205
Trade Marks Division.....	260,305	154,868
Bureau for Translations.....	Nil	1,526,476
Patent and Copyright Office.....	1,426,868	1,706,558
Commission re: Patents, Copyrights, Trade Marks and Industrial Designs..	Nil	15,522
<hr/> Total.....	<hr/> \$ 2,260,426	<hr/> \$ 3,491,455

REGISTRATION DIVISION

1. REGISTRATION SECTION

The following schedule indicates the number of documents issued and registered in this section from April 1, 1956 to March 31, 1957, inclusive.

Document	Issued	Registered
Boards of Trade Certificates and Amendments.....	23	
Bonds.....	2	
Certified copies and Certificates.....	2,481	
Charters of Incorporation.....		862
Charters, Supplementary.....		608
Charters, Surrendered and Cancelled.....		179
Commissions.....	223	223
Deeds, Releases, Surrenders.....		1,011
Expropriations of land.....		20
Grants of land.....	417	417
Letters Patent appointing Senators.....		4
Licences, Ferry, and Assignments of same.....		4
Powers of Attorney.....		13
Proclamations.....	22	22
Quit-Claims.....	64	64
Amendments to by-laws of Trade Unions.....		2
Warrants under the Extradition Act.....		4
	3,207	3,458

The Registration Division is charged with the responsibility of collecting the returns to orders and addresses of the House of Commons and Senate and also the answers to questions which concern more than one department of the government.

The Division is the custodian of the following seals, which it affixes to the appropriate documents: Great Seal of Canada, Governor General's Privy Seal, Seal of the Administrator of Canada, Seal of the Secretary of State of Canada, and Seal of the Registrar General of Canada.

A considerable amount of miscellaneous work was performed in connection with the registration of documents, proofreading, furnishing memoranda of various kinds and supplying information from the indexes and records.

Lists are appended of public officers whose commissions were registered, of Boards of Trade registered under the Boards of Trade Act, and of registered bonds and securities.

LIST OF PUBLIC OFFICERS WHOSE COMMISSIONS WERE REGISTERED FROM APRIL 1, 1956 TO MARCH 31, 1957.

2. DEPARTMENTAL LIBRARY

The following collections are in the Library:

The Statutes of Canada, of the Provinces and of the United Kingdom; the Canada Gazette; Provincial Gazettes and the London Gazette; Journals and Debates of the Senate and of the House of Commons;

LAW REPORTS OF CANADA: Supreme Court, Exchequer Court, Dominion Law Reports, Western Weekly Reports, Canadian Annual Digest, Canadian Abridgment, Canadian Encyclopaedic Digest, Ontario Reports;

LAW REPORTS OF THE UNITED KINGDOM: Judicial Committee of the Privy Council Appeal Cases, Chancery Division, Probate Division, Queen's Bench Division, Weekly Law Reports;

Encyclopaedias, biographies, year books and directories.

Arrangements were made for binding the London Gazette, the Canada Gazette and the official gazettes of the provinces, and the Law Reports of Canada and of the United Kingdom for the year 1955.

Copies of the Annual Report of the Department for the year 1955-56 were despatched in accordance with the approved distribution list. Over 1,855 books were loaned, and 2,296 volumes were consulted.

Certain United Kingdom publications, to the number of 2,884 copies, such as the London Gazette, Debates of House of Lords and of the House of Commons, Public General Acts and those of the Commonwealth Relations Office were distributed to the provincial legislatures.

Many new publications were received and recorded.

SPECIAL DIVISION

The customary arrangements were made for the printing and distribution of the Speeches from the Throne for two Sessions of the 22nd Parliament.

Permission was granted by the Secretary of State for the use of Parliament Hill and of the National War Memorial for thirteen ceremonies.

Correspondence was carried on in connection with applications for royal patronage (e.g. in the form of permission to use the title Royal); congratulatory messages from the Sovereign in 399 cases of sixtieth wedding anniversaries and 61 cases of one hundredth birthdays; 2 applications for the Royal Bounty for the birth of triplets.

A number of representations or suggestions were received for awards for bravery, and correspondence and investigation took place in connection with these. Her Majesty the Queen awarded the George Medal to Corporal Henry Martin Clifford Johnstone of the Royal Canadian Mounted Police, for bravery in preventing four masked bandits from robbing the Royal Bank of Canada at Coquitlam, B.C., on April 3, 1956.

The hospitality and ceremonial arrangements as to which the Division gave assistance during the year were:

Address of the President of the Republic of Indonesia to Members of both Houses of Parliament, June 5, 1956;

Visit to Canada of Mr. Farrukh Amin, Deputy Secretary to the Governor General of Pakistan;

Opening of the Alexander Graham Bell Museum, Baddeck, N.S., July 5, 1956;

Luncheon by the Minister of Northern Affairs and National Resources for provincial deputy ministers of forests, November 14, 1956;

Address of the Prime Minister of France to Members of both Houses of Parliament, March 4, 1957.

The Guide to Relative Precedence at Ottawa, based on the Table of Precedence for Canada, was revised and issued.

The Special Division represented the Department on two special or temporary interdepartmental committees, viz. the committee on preparations for the 14th Quinquennial Congress of the Universal Postal Union (which meets in Ottawa in August 1957) and the committee established to revise the manual of reference issued by the Civil Service Commission.

In response to written and verbal requests, advice was offered on questions of protocol such as precedence, ceremonial, hospitality, styles of address, the wearing of decorations, the proposing of toasts, the use of photographs of the royal family and the use of flags and armorial bearings.

Correspondence was conducted with the provinces on behalf of the Department of External Affairs regarding 26 enquiries on various subjects and 119 maintenance orders obtained abroad against Canadians or obtained in Canada against persons residing abroad. Other correspondence concerned 117 documents deposited pursuant to statutory requirements, the authentication by the Governor General of 96 documents and the transmission of 223 commissions of appointment.

Statutes of the provinces were received and sent to the Department of Justice for examination under Section 90 of the B.N.A. Act; warrants under the Extradition Act were forwarded. There was no action taken by the Division under the Canada Temperance Act; part II of this act remains in force only in the counties of Perth and Huron in the Province of Ontario.

TRADE MARKS OFFICE

The two following tables show, respectively, the transactions and comparative statement of the net revenue of the Trade Marks Office.

BUREAU FOR TRANSLATIONS

As at March 31, 1957, the staff of the Bureau numbered 292 employees, including 209 translators of all grades and 83 administrative and clerical employees.

Parliamentary and legal translations

Translation was made of the official report of the Debates of the House of Commons (1956 Session) which covered 7,858 pages, and of the index of 487 pages; of the official report of the Senate Debates, comprising 1,132 pages and a 70-page index; also translated were the proceedings of the various standing and special committees of both Houses, and the estimates, which comprised 6,426 pages.

The Law Division of the Bureau translated 478 bills and motions with explanatory notes and indexes.

Translation was also made of orders, proclamations, regulations implementing various acts, and indexes. This work is performed by the Bureau's Privy Council Division, which also translates international conventions and agreements and various legal documents for the Privy Council. This division undertook the classification of regulations, revised earlier texts of regulations translated in other divisions and translated Treasury Board decisions, special orders and other departmental documents.

Translations were made by the parliamentary divisions for governmental bodies, and commissions of enquiry, notably for the Restrictive Trade Practices Commission, the Royal Commission on Radio and Television Broadcasting and the Royal Commission on Canada's Economic Prospects. Assignments from these sources have been increasing steadily in volume.

Departmental translation

There was an increase also in the work of the departmental divisions, to the point that the staffs of several of them must be enlarged if the requirements of the departments are to be met. The development of the functions of the public service, including commissions and boards of various kinds, and the public demand for more governmental publications to be issued in French as well as in English appear to be the main causes of this expansion in departmental translation requirements. The matter of the resultant immediate and long range personnel needs of the Bureau has been the subject of a thorough investigation and report by the Superintendent of the Bureau and of recommendations by the Department to the Civil Service Commission and the Treasury Board.

Foreign Languages

As the work of the Foreign Languages Division has grown steadily it became necessary to increase its staff. Translation from Russian is increasing, more particularly, because larger numbers of scientific and technical publications from Russia are now available and useful to our government services.

Translation performed on a firm price basis outside of the Bureau

During the past year it has again been necessary to enlist the services of outside translators. The amount of translation done in that way on a firm price basis has attained an unusually high volume, chiefly because of the requirements of parliamentary committees, but also because of the necessity of prompt translations of army training manuals and of records of the Canadian War Claims Commission. Consequently the Bureau had to assign to outside translators 1,239,588 words for the General Translation Division; 825,000 words for the National Defence Division (compared with 442,000 the previous year), which included the first two volumes of the official history of the Second World War; 960,334 words for the Foreign Languages Division, 718,550 for the Royal Commission on Canada's Economic Prospects and 197,000 words under the heading "miscellaneous".

Total Work Done

It will be seen from the table on page 28 that the translation during the fiscal year totalled 79,108,910 words (as compared with 72,469,331 words the previous year). This includes translations done outside the Bureau. It will be noted from this table that a considerable portion of the work consists of translation of correspondence. The "Words" column under the caption "Miscellaneous" includes the preparation of reports, statistical documents, comparison and standardization of texts, written consultations, etc.

The column "Hours" represents the time spent in research, proof-reading, revision of work done outside the division concerned, the compiling of glossaries and other work related to translation which cannot be calculated and assessed in numbers of words.

Co-operation with other bodies

Translators are called upon to assist other official bodies, e.g. the Civil Service Commission in marking examination papers and reviewing the records of candidates in promotional competitions, also various departmental and inter-departmental committees such as the Geographical Names Committee of the Department of Mines and Technical Surveys. The time devoted to such assistance is not reflected in the table on page 28.

Under this heading also fall the lectures and articles on its work or on questions related to translation, which the Bureau for Translations is invited to furnish to secondary schools or institutions of higher learning, learned societies and specialized periodicals.

Terminology Service

During the year, this service published several terminological bulletins and several others are being compiled. A plan to make these documents available to the public is now being studied.

The Terminology Service keeps in touch with many similar bodies in other countries, particularly international organizations, and receives from them some valuable vocabularies and terminological lists in exchange for its own. This service co-operates and exchanges information, more particularly, with the *Comité d'étude des termes techniques français* of Paris. It has thus obtained permission to reproduce for the Bureau the index cards of the Comité and these will be the basis of an important terminological bulletin.
